SEWA PARMO DHARMA

सेवा परमो धर्मःसेवा ही जिनका जीवन संदेश है -

As a pharmacy institute it is most important thing for us that our outgoing student should be a dexterous professed pharmacist. Dexterous means skilful with the practical hands and professed means multitalented having or showing exceptional knowledge. Our main dictum and thrust area is to develop the best pharmacists from our Institute. We have set our vision "To be an academic foundation constantly trailing distinction in the field of pharmaceutical education and research, with an aim to provide professionally competent pharmacist". Keeping in line with vision of institute and considering challenges in healthcare system the most important tool to face the upcoming challenges is to promote research, but we want to make our students an ethical researcher. But while making our students excellent in education it's our prime duty to teach those ethics of life. The institute continuously strives to inculcate social duties and responsibilities amongst the faculty and students. Ethics plays a large role in shaping the social behaviour of a person in all spheres of life. Compliance with ethics guarantees a person and society a conflict-free existence and the possibility of development. Social service gives a satisfaction as well as thought of selfless efforts.

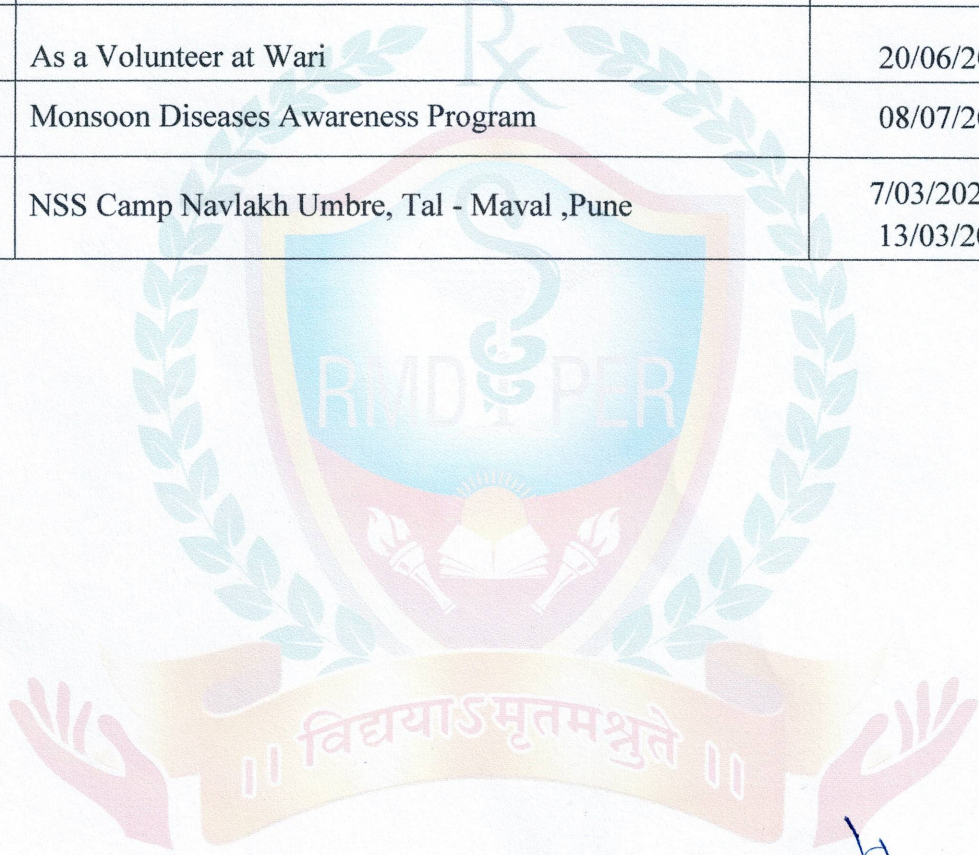

Social service also has an important role in various developmental dimensions of nation. A successful student with the spirit of social service can play an important role in nation building. One has to inculcate the spirit of service in him. This will make the dream of a successful family come true. Our life should be devoted to himself and family as well as society and nation. Students life should be devoted to his family, society and ultimately for his/her country. Here it is important to inculcate the social service & spirit of charity in students mind. Being a Hindu Minority Institute following are programs through which we have tried to bend our students thought process towards the social service.
